The Evolution Edition

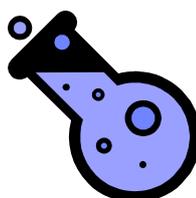

What's Going On?

There are so many great activities planned for all of the Guests, Scouts and Guides to enjoy, these activities are organised by the ever so wonderful Rovers and assisted by the Venturers.

Sounds and Sight—

Sounds and sights looked like a very exciting activity with lots of fun things to do including; a maze, making instruments, morse code etc...

Engineering 101—This activity tests your logic and abilities with its many activities involving a lot of structuring.

Chemistry—Chemistry is an activity which blows you away, this activity includes exploding film canisters. This will be lots of fun entertaining your guests and yourselves!

Fluid Dynamics—Be prepared to get wet! This activity is super fun and is enjoyed by all. This activity includes: a water slide, sponge fights, going to the pool and making rain sticks.

Defying gravity—oh em geeeeeeee abseiling, what a blast! This activity is super fun and exciting for everyone. You will always be happy when you see a smile on your guests face!

Rover Fun Night

Games galore! it's a well known fact that rovers know how to have a good time, and last night they did not disappoint. One scout, Marcus from yellow troop said that all the activities were energetic and engaging . Fun for guests, scouts and even the rovers! Marcus' favourite activity involved trying to knock each other over a can. A classic.

The Weather Watch

A good scientist would never rule out a probability but, it is likely that both Monday and Tuesday will be warm weather. It could be hot, so best be prepared with your hat on your head and sunscreen on your face.

Sponsors Afternoon Tea

Yesterday some of our wonderful sponsors arrived for a tour of Agoonoree followed by afternoon tea. At the afternoon tea people who have attended Agoonoree for ten years received certificate to commend their hard work. Then those who have attended for fifteen years received their new scarf with a yellow strip. Congratulations to Shaun Sandilands (V.C), Andrew Coop (Equipment Coordinator,) and Tanya Moodie (Administration) on 15 year Service and Tom Wixted, Chase Brodie, Cassy Carr, Carole Howlett, and Nick Watson for 10 years service

On this Day...

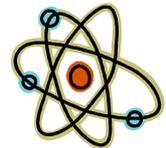

Patrol of the day

The patrol of the day is the Grey Camels! In this patrol we have Dylan, Raph, Rhys, Nick, Lachlan and their guest Robert.

Robert is also our guest of the day!

His favourite activity so far is the water slide—he had 3 goes! He also loved the chariot and sponge activities at the “Fluid Dynamics” base—water activities!

On this day in 1791, scientist Michael Faraday was born. He studied electricity and magnetism invented the first electric motor! Happy birthday Faraday!

The Unsolved mysteries

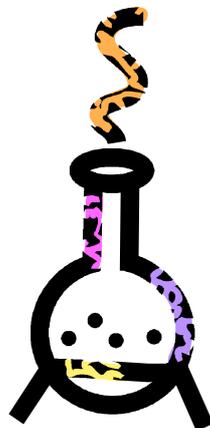

What is the answer to these riddles:

If you throw me from the window,
I will leave a grieving wife.
Bring me back, but in the door, and

Got any Gossip?
Drop it in during
free time or pop

Keep your gnomes under watch!

Tomatoes, FOR or AGAINST? Dragon Patrol
from Blue Troop set us a task to discover
what Agoonoree believes about the
consumption of tomatoes. Is it appropriate
to eat a tomato raw, like an apple? We
surveyed to find the truth:
FOR: 54 AGAINST: 42
So now we know the truth about eating
tomatoes!

Everyone must make a stunning pose when ever they see Marney (Dory) from RC
with a camera. She always wears a yellow hat. This is mandatory anyone that
doesn't pose will be severely frowned upon.

Have some gossip to share? Find us at the Admin tent and let us
know! You can remain anonymous if you wish!
