"Yellow is clearly the best troop on camp. We have lots of food and fun and most importantly, we have plenty of Bohemian Rhapsody to listen to. So far everyone seems to be having a good time and enjoying the activities."

Buddy The Medical Dog

There have been sights of a dog around Agoonoree this year. This dog's name is Buddy and he is a very special boy. Buddy's role is to assist one of our venturers, Nic Blyth, with a medical condition called Type 1 Diabetes. Type 1 Diabetes is a serious condition that affects many people and should be treated as such. Buddy detects a scent that Nic lets out on his breath if he is getting close to having a hypo (Low Blood Sugar). Buddy detects a scent that Nic lets out on his breath if he is getting close to having a hypo (Low Blood Sugar). If you have any questions for Nic about Buddy, feel free to ask when Nic is not busy. Buddy is **not** to be touched (even if he is not wearing his jacket) as he is always on duty and will be with Nic throughout all of camp.

Strawberries

The camp has received a large shipment of strawberries. These berries have all passed through a metal detector and are completely safe to eat (they are also

Rover Tag

The rover's game of tag is off to a roaring start with many rovers having already been eliminated. Our favourite tag so far was completed by a rover who used fairy bread, which they had to beg catering for, to tag their unsuspecting target at the bottom of the abseiling tower.

Night Activities

Night activities are fully underway with all scouts, guides and guests participating in the Rover night and all the rotations they offered to amuse us. Last night, the disco was popping with excitement with all troops showing their best moves and having a well earned night with their patrols and guests. The next few nights will be packed full of excitement which includes the movie night and closing ceremony with a campfire.

DORA THE EXPLORER EXPOSED!!!!

Dora the explorer is a widely famous children's TV show who's main character embarks on many explorations to discover new lands far and wide. However, has television been lying to us for years? A recent study has shown that exploring isn't what Dora is doing at all. Is it really exploring if you have a magic map that assists in "Searching for new Places"? Is this all a hoax or is Dora the explorer not as we thought?

Kebab Scandal Rocks Grey Troop

A new crisis hits Agoonoree as wooden sticks were found in Kebabs on Monday at lunch time. Research conducted by Grey Troop proves that these sticks are not edible and should be removed from all meat before consumption. The meat is not harmful if the sticks are removed as soon as possible however we recommend eating the meat while hot. All campers are warned to check their kebabs for the pesky sticks before consuming any. Grey B will be conducting a thorough investigation as to the origin and meaning of these sticks.

What's on at Bungalow?
