

Abseiling and Ground Activities

Abseiling is one of the scariest activities on camp. Going backwards down a wall isn't for everyone, but many brave campers want to experience the thrill. We asked some of the campers from Blue D what they thought about abseiling, they said it was 'scary but fun' because they had to 'over-come their fears'.

With so many campers wanting to have their shot at abseiling, there is quite a large queue. The 'Behind the Scenes' ground activities are a great place to wait your turn. Become an up-and-coming movie maker through special effects, directing, and poster making.

Weather Forecast

24°C and Cloudy

Even though it's cloudy, remember to stay sun safe.

Night Activities

Our night activities so far have been pretty awesome. From the opening ceremony on the first night to the special screening of Aladdin last night, our evenings have been filled with enjoyment.

Sunday night, we had our Rover Night. We had 46 amazing Rovers come to Agoonoree to run fun filled games.

Tonight, you need to get dressed in your best camp-chic outfit, because our Agoonoree disco is being held at the Parade Ground! Be prepared for a night full of good music and fun memories!

Recycling

The environment is important. Be sure to recycle any of the cans and bottles that you find in the trailer at the mall to help care for it. Put any 10c bottles include plastic water bottles, soft drink cans or chocolate milk bottles into the trailer.

Minions—submitted by a patrol in yellow

A witness from yellow has attested to her frightening encounter with the minion spy today at naptime. While setting up base under a tree she happened to notice a yellow figure hidden among the leaves. Curiously, she snuck up behind the tree and caught the spy with a banana in their hand, waiting for the right moment to strike. Several offers have come forward with their bizarre stories of the Minion spy's. This is a warning to watch out for what may be a hidden among the bushes.
